Congratulations on your purchase, and welcome to Philips! To fully benefit from the support that Philips offers, register your product at www.philips.com/welcome.

1 Important

Read this user manual carefully before you use the appliance and keep it for future reference.

- **WARNING:** Do not use this appliance near water.
- When the appliance is used in a bathroom, unplug it after use since the proximity of water presents a risk, even when the appliance is switched off.
- **WARNING:** Do not use this appliance near bathtubs, showers, basins or other vessels containing water.
- Do not insert metal objects into the air grilles to avoid electric shock.
- Never block the air grilles.
- Before you connect the appliance, ensure that the voltage indicated on the appliance corresponds to the local power voltage.
- Do not use the appliance for any other purpose than described in this manual.
- Do not use the appliance on artificial hair.
- When the appliance is connected to the power, never leave it unattended.
- Always unplug the appliance after use.
- Never use any accessories or parts from other manufacturers or that Philips does not specifically recommend. If you use such accessories or parts, your guarantee becomes invalid.
- Do not wind the mains cord round the appliance.

- If the mains cord is damaged, you must have it replaced by Philips, a service centre authorised by Philips or similarly qualified persons in order to avoid a hazard.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.
- For additional protection, we advise you to install a residual current device (RCD) in the electrical circuit that supplies the bathroom. This RCD must have a rated residual operating current not higher than 30mA. Ask your installer for advice.
- If the appliance overheats, it switches off automatically. Unplug the appliance and let it cool down for a few minutes. Before you switch the appliance on again, check the grilles to make sure they are not blocked by fluff, hair, etc.

Noise Level: $L_c = 83 \text{ dB [A]}$

Electromagnetic fields (EMF)

This appliance complies with all standards regarding electromagnetic fields (EMF). If handled properly and according to the instructions in this user manual, the appliance is safe to use based on scientific evidence available today.

Environment

Do not throw away the appliance with the normal household waste at the end of its life, but hand it in at an official collection point for recycling. By doing this, you help to preserve the environment.

2 Dry your hair

- 1 Connect the plug to a power supply socket.
 - For precise drying, attach the concentrator (①) onto the hairdryer (②).
 - To disconnect the attachment, pull it off the hairdryer.
- 2 Adjust the airflow switch (⑦) to **I** for gentle airflow and styling, or **II** for strong airflow and fast drying. Press the Turbo button (⑧) for extra airflow.
- 3 Adjust the temperature switch (⑥) to ☺ for hot airflow, ☺ for warm airflow, or ● for cool airflow. Press the Cool shot button (⑨) for cool airflow to fix your style.

After use:

- 1 Switch off the appliance and unplug it.
- 2 Place it on a heat-resistant surface until it cools down.
- 3 Take the air inlet grille (④) off the appliance to remove hair and dust.
 - ↳ To remove the air inlet grille, press the thumbrests on the left and the right side of the air inlet grille simultaneously and pull it off the appliance.
 - ↳ To reattach the air inlet grille, press the thumbrests on the left and the right side of the air inlet grille simultaneously and press it onto the appliance.
- 4 Clean the appliance by damp cloth.
- 5 Keep it in a safe and dry place, free of dust. You can also hang it with the hanging loop (⑤).

3 Guarantee and service

If you need information e.g. about replacement of an attachment or if you have a problem, please visit the Philips website at www.philips.com/support or contact the Philips Customer Care Centre in your country. The phone number is in the worldwide guarantee leaflet. If there is no Consumer Care Centre in your country, go to your local Philips dealer.

1 Important

Read this user manual carefully before you use the appliance and keep it for future reference.

- **WARNING:** Do not use this appliance near water.
- When the appliance is used in a bathroom, unplug it after use since the proximity of water presents a risk, even when the appliance is switched off.
- **WARNING:** Do not use this appliance near bathtubs, showers, basins or other vessels containing water.
- Before you connect the appliance, ensure that the voltage indicated on the appliance corresponds to the local power voltage.
- Do not use the appliance for any other purpose than described in this manual.
- Only use the appliance on dry hair. Do not use the appliance on artificial hair.
- Keep the hot surfaces of the appliance away from your skin.
- When the appliance is connected to the power, never leave it unattended.
- Always unplug the appliance after use.
- When the appliance is hot, keep it on a heat-resistant surface and never cover the appliance with anything, such as a towel or clothing.
- Never use any accessories or parts from other manufacturers or that Philips does not specifically recommend. If you use such

accessories or parts, your guarantee becomes invalid.

- Do not wind the mains cord round the appliance.
- If you use the appliance on color-treated hair, the straightening plates may stain.
- If the mains cord is damaged, you must have it replaced by Philips, a service centre authorised by Philips or similarly qualified persons in order to avoid a hazard.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.
- For additional protection, we advise you to install a residual current device (RCD) in the electrical circuit that supplies the bathroom. This RCD must have a rated residual operating current not higher than 30mA. Ask your installer for advice.
- Do not probe the ion outlet openings with metal objects.

Electromagnetic fields (EMF)

This appliance complies with all standards regarding electromagnetic fields (EMF). If handled properly and according to the instructions in this user manual, the appliance is safe to use based on scientific evidence available today.

Environment

Do not throw away the appliance with the normal household waste at the end of its life, but hand it in an official collection point for recycling. By doing this, you help to preserve the environment.

2 Straighten your hair

- 1 Connect the plug to a power supply socket.
- 2 Slide the on/off switch (①) to **I** to switch on the appliance.
 - ↳ The power-on indicator (②) lights up.
 - ↳ After 30 seconds, the appliance heats up.
 - ↳ The ion function activates when the appliance is switched on. The function provides additional shine and reduces frizz. When the function is on, a special odor may be smelt and a sizzling noise may be heard, which is normal and caused by the ions that are generated.
- 3 Slide the closing lock (④) to unlock the appliance.
- 4 Comb your hair and take a section that is not wider than 5cm for straightening.
- 5 Place it between the straightening plates (③) and press the handles together.
- 6 Slide the straightener down the length of the hair in a single motion (max. 5 seconds) from root to end, without stopping to prevent overheating.
 - To create flicks, turn the straightener half-circle inwards (or outwards) when it reaches the hair ends. Hold the straightener in that position for 2 to 3 seconds, and then release it.
- 7 After 20 seconds, repeat step 6 until you achieve the desired look.
- 8 To straighten the rest of your hair, repeat steps 4 to 7.

After use:

- 1 Switch off the appliance and unplug it.
- 2 Place it on a heat-resistant surface until it cools down.
- 3 Clean the appliance and straightening plates by damp cloth.
- 4 Lock the straightening plates (④).

- 5 Keep it in a safe and dry place, free of dust. You can also hang it with the hanging loop (⑤).

3 Guarantee and service
