1 Important

Read this manual carefully before you use the appliance and keep it for future reference.

WARNING: Do not use this appliance near water.

When the appliance is used in a bathroom, unplug it after use since the proximity of water presents a risk, even when the appliance is switched off.

WARNING: Do not use this appliance near bathtubs, showers, basins or other vessels containing water.

Always unplug the appliance after use.

If the mains cord is damaged, you must have it replaced by Philips, a service centre authorised by Philips or similarly qualified persons in order to avoid a hazard.

This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.

For additional protection, we advise you to install a residual current device (RCD) in the electrical circuit that supplies the bathroom. This RCD must have a rated residual operating current not higher than 30mA. Ask your installer for advice.

Do not insert metal objects into openings to avoid electric shock. Before you connect the appliance, ensure that the voltage indicated on the appliance corresponds to the local power voltage.

Do not use the appliance for any other purpose than described in this manual.

Do not use the appliance on artificial hair.

When the appliance is connected to the power, never leave it unattended.

Never use any accessories or parts from other manufacturers or that Philips does not specifically recommend. If you use such accessories or parts, your guarantee becomes invalid.

Do not wind the mains cord round the appliance.

Wait until the appliance has cooled down before you store it.

Pay full attention when using the appliance since it could be extremely hot. Only hold the handle as other parts are hot and avoid contact with the skin.

Always place the appliance on a heat-resistant, stable flat surface.

Avoid the mains cord from coming into contact with the hot parts of the appliance.

Keep the appliance away from flammable objects and material when it is switched on.

Never cover the appliance with anything (e.g. a towel or clothing) when it is hot.

Only use the appliance on dry hair. Do not operate the appliance with wet hands.

Keep the barrel clean and free of dust and styling products such as mousse, spray and gel.

The barrel has a layer of coating. This coating might slowly wear away over time. However, this does not affect the performance of the appliance.

Always return the appliance to a service centre authorized by Philips for examination or repair. Repair by unqualified people could result in an extremely hazardous situation for the user.

Electromagnetic fields (EMF)

This Philips appliance complies with all applicable standards and regulations regarding exposure to electromagnetic fields.

Environment

Your product is designed and manufactured with high quality materials and components, which can be recycled and reused.

When this crossed-out wheeled bin symbol is attached to a product it means the product is covered by the European Directive 2012/19/EU.

Please inform yourself about the local separate collection system for electrical and electronic products.

Please act according to your local laws and do not dispose of your old products with your normal household waste. The correct disposal of your old product will help prevent potential negative consequences for the environment and human health.

2 Introduction

Philips 38mm styling brushes allow you to quickly and easily create curls and waves on your hair. Heated 38mm barrels provide even lasting results, and retractable bristles ensure safe application and perfect styling results. Hope you will enjoy using your Essential Care Heating Styling Brush.

3 Overview

1 Bristle Retraction Knob
2 Ceramic Coated Brush Barrel
3 Bristles
4 Power-on Indicator
5 On/Off Switch
6 360° Swivel Cord
7 Hanging Loop

4 Style your hair

Preparation for your hair:

• Apply heat protection spray on wet hair before drying it.

• Make sure your hair is completely dry before styling.

• If you have curly or frizzy hair, comb them through before styling using the heated styling brush.

• Apply mild hair lotion before styling with heated styling brush.

• Connect the plug to a power supply socket. Slide the on/off switch (5) to the switch on position.

5 Additional styling tips

You want to add more volume to your hair, wrap your hair around the roots to the tips, ensuring that hair is spread evenly across the barrel. When wrapping hair from the roots, you can either extract the bristles to secure your hair in position, or retract the bristles for styling. To avoid unintentional burns, remember to practice using the bristles fully before styling.

After use:

1 Switch off the appliance and unplug it.

2 Place it on a heat-resistant surface until it cools down.

3 Remove hairs and dust from the appliance.

4 Clean the appliance with a damp cloth.

5 Keep the appliance in a safe and dry place, free of dust.

6 You can also hang it with the hanging loop (7).

6 Guarantee and service

If you need more information or if you have any problem, please visit the Philips website at www.philips.com or contact the Philips Customer Care Centre in your country (you can find the phone number in the worldwide guarantee leaflet). If not, see a Consumer Care Centre in your country or go to a Philips Sales Dealer.

7 Troubleshooting

Problem Cause Solution

The appliance is plugged in, but the appliance does not work at all.

Check the power for power socket in your house. Ensure that the voltage indicated on the type plate of the appliance corresponds to the local mains voltage.

4 Styling af dit hår

1 Anvend varmebeskyttende spray, så dit hår ikke bliver tørt.
2 Sørg for at håret er helt tørt, før du styler det.
3 Hvis du har krøllet eller krøllet hår, skal du rulle det, før du begynder at bruge den opvarmede stylingbørste.
4 Anvend et let hårbeskyttende spray, før du styler med den opvarmede stylingbørste.
5 Tag fat i håret med håret mellem 2 cm og 4 cm. Bristler i hele håret lægges til på næsten når det er færdigt.
6 Hvis du har krøllet eller krøllet hår, skal du rulle det, før du begynder at bruge den opvarmede stylingbørste.
7 Sørg for at håret er jævnt fordelt på cylinderen.
8 Tag fat i håret mellem 2 cm og 4 cm. Bristler i hele håret lægges til på næsten når det er færdigt.
