Highlights

2-stage bagless cyclonic

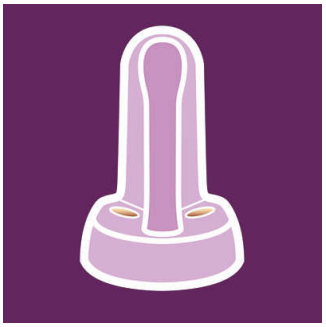

The bagless cyclonic airflow keeps the dirt inside rotating to ensure optimal, high suction power and lasting cleaning performance. Its 2-stage filtration system ensures that, once inside, the dirt cannot escape. The first filter blocks most dirt, while the second filter traps the finer dust particles.

Aerodynamic nozzle design

The aerodynamic nozzle design of the Philips MiniVac is created to ensure an optimum dust pick-up of even the most fine dust particles. The ergonomic shape of the nozzle helps you to clean even the most hard-to-reach areas.

Charging stand

You can store the Philips MiniVac on a convenient charging base, mounted on a wall or placed on a table. This means the Mini Vac, with its powerful rechargeable battery, is always ready when you are.

Clean all areas in your car

The Philips MiniVac Car is ideal to clean your car as it is equipped with a car plug to reach even the most difficult areas of your car without the hassle of charging the MiniVac. Therfore, it is always ready to use!

Comfortable grip

The Philips Mini Vac has a looped handle that ensures optimum grip. You can grab the Mini Vac in any way you like.

Powerful 12 V NiMH batteries

The powerful longer-lasting Nickel-Metalhydryde (NiMH) batteries* of the Philips MiniVac do not cope with memory effect. This effect reduces the capacity of the battery over time, reducing the runtime. This Mini Vac with NiMH batteries ensures longerlasting power versus products with the standard Nickel-Cadmium (NiCd) batteries that do have memory effect.

Wide range of accessories

The Philips MiniVac comes with a wide range of accessories to make the minimum effort when cleaning your home and car. It includes a small and large brush tool, small and large crevice tool and a long hose tube; ideal to clean even the hard-to-reach places. All in all, it is an ideal combination for cleaning your home or car!

Storage bag

The storage bag allows you to keep all the accessories and car plug in one place, to ensure you have all you need to clean your car at any time!

Specifications

Performance

- Battery voltage: 12 V
- Charging time: 16-18 hour(s)
- Vacuum (max): 4.2 kPa
- Runtime: 11 minute(s)
- Input power (max): 120 W
- Suction power (max): 22 W
- Noise level (Lc IEC): 81 dB
- Airflow (max): 840 l/min

Design

- Color: Deep black with orange accents
- Design features: Translucent dust chamber

Usability

- Special features: Charging indication, Soft touch handle

Nozzles and accessories

- Other accessories: Charging base

Filtration

- Dust capacity: 0.5 L
- Filter system: 2-stage cyclonic action
