

Philips Series 6000  
Fresh Air Mask

Superior breathing comfort

ACM067/01

## Every second you can enjoy fresh air

### Breakthrough Air Power technology

Philips Fresh Air Mask redefines the level of breathing comfort via its Air Power technology, making masks a fashion accessory that you would love to wear every day, as it V-shapes your face.

#### **Breathe fresh clean air ever so comfortably**

- Permeable material Air mesh to improve breathing experience
- Powerful Air technology quickly expels CO<sub>2</sub> and hot air exhaled

#### **Beauty and Wearing comfort**

- Golden anchor point effectively disperses the pressure

#### **Filter filtration performance**

- Can filter out 95% 3 µm particles during the first use

#### **Filter filtration performance**

- We take care of you

#### **Beauty and wearing comfort**

- Golden anchor point

# PHILIPS

# Specifications

## Specifications

- Colour: Black shell, light Silver cover

## Battery Life

- Speed 1: 3.5 hours
- Speed 2: 2.5 hours

- Speed 3: 2 hours (average)
- Full charge: 3 hours to get fully charged

## Design

- Colour: Black Shell + Light Silver Cover

# Highlights

## Golden anchor point

The "golden anchor point" defined by the Philips laboratory through scientific analysis to effectively disperse the pressure of the mask on the bridge of the nose, cheeks and ears.

## Permeable material

Selected from thousands of high-quality material, Air mesh guarantees your incredibly comfortable breathing comfort. The delicate grille pattern on the cover was scientifically designed to enable enough fresh air to come through, but not pollutants. With its high permeable quality that also achieves a good balance between robustness and elasticity, through thermo foaming processing to deliver the unprecedented breathing experience to you.

## Powerful air technology

Exclusively customised for Philips Fresh Air Mask; The incredible powerful motor and air fluid dynamic design reduce the exhalation resistance and improve the breathing comfort.

## Filter performance

Can filter out 95% 3 µm particles during the first use

## The mask that can breathe

Selected from thousands of high-quality material, Air mesh guarantees your incredibly comfortable breathing comfort. The delicate grille pattern on the cover was scientifically designed to enable enough fresh air to come through, but not pollutants. With its high permeable quality that also achieves a good balance between robustness and elasticity, through thermo foaming processing to deliver the unprecedented breathing experience to you.

## We take care of you

Can filter out 95% 3 µm particles during the first use
