Always select a low setting when you use the straightener for the first time.

Tip	EN
1	It is suggested to keep the heating plates locked before use.

Tip	EN
2	Connect the plug to a power supply socket. Press and hold the On/Off switch (1) until the display screen lights up.
3	The default temperature setting is 160°C.
4	is displayed (3).
5	Press the +/- buttons (6) to select your desired temperature.
6	When the heating plates are heating up, the temperature display (4) will show the selected temperature.
7	When the heating plates have reached the selected temperature, the heating indicator (8) will stop flashing.

ThermoGuard	EN
ThermoGuard prevents you from unintentional heat above 200°C. When you increase the temperature above 200°C, the temperature will increase only 5°C by each 10°C you increase the temperature.	LV
1 The Ion Function is activated when the appliance is switched on. It provides additional steam and reduces frizz.	PL
2 The Ion indicator (3) is displayed.	RO
3 The Ion Function is switched off when there is a strizzling sound. It is common because they are caused by the Ion generator.	SK
4 Slide the closing lock (5) downwards to unlock the appliance.	SL
5 After the straightener is switched on, the keys are automatically locked. Ion press is prepared for 5 sec. Subsequently, the keys are locked for no longer than 5 sec.	SR
6 To turn the appliance, press +/- for 1 sec.	UK
7 Comb your hair and then start styling your blow dry hair into sections not wider than 5 cm.	
8 Clean the appliance after each use. Use the comb sections. Place a section of hair in between the heating plates. Press and press the handles (9) downwards to close the comb. Note: Cool down the appliance before you remove or install either one or both combs.	
9 Slide the straightener down the length of the hair in a single motion (max. 5 sec) from top to end, without stopping. To prevent frizz, always use the comb.	
10 If you are straightening with either one or both combs, you may feel the comb vibrating. This vibration is caused by heat on the plates for a more effective straightening. To stop straightening, the comb will repeat beep 7 to 9 units you achieve your desired look.	
11 To finish your hair styling, mist with a shine spray or apply heat protectant.	
Tip: Do not touch your hair while setting your hair style. When the appliance has cooled off, function it switches off automatically after 60 minutes.
