IMPORTANT SAFETY INSTRUCTIONS

When using an electrical appliance, basic safety precautions should always be followed, including the following:

Read all instructions before using this appliance.

DANGER

To reduce the risk of electric shock:

1. Do not reach for a corded trimmer that has fallen into water. Unplug immediately.
2. Adapter is not for immersion or for use in shower.
3. Do not use an extension cord with this appliance.
4. Do not place or store a trimmer where it can fall or be pulled into a tub or sink. Do not place in or drop a trimmer into water or other liquid while plugged in.
5. Always unplug this trimmer from the electrical outlet immediately after charging, except when trimmer is (re)charging.
6. Unplug and remove power supply cord from trimmer before cleaning.

WARNING

To reduce the risk of burns, fire, electric shock or injury to persons:

1. This appliance should never be used by, on, or near children or invalids. Keep out of reach of children.
2. Use this trimmer for its intended household use as described in this manual. Do not use attachments not recommended by Philips Electronics North America Corporation.
3. Never operate this trimmer if it has a damaged cord or plug, if it is not working properly, if it has been dropped, damaged, or dropped into water. For assistance, call 1-800-243-7884.
4. Keep the trimmer, cord, plug and any attachments away from heated surfaces.
5. Never drop or insert any object into any opening.
6. Do not operate, charge or plug in trimmer outdoors or where aerosol (spray) products are being used or where oxygen is being administered.
7. Always check foil, cutters, cutting unit, rotating discs and trimmers before using the trimmer. Do not use the trimmer if foil, cutters, cutting unit, rotating discs or trimmers are damaged, as injury may occur.
8. Always attach plug to trimmer first, then to outlet. To disconnect, turn on/off switch to "Off" position, then remove plug from outlet.
9. To prevent possible damage to the cord, do not wrap cord around the trimmer.
10. Never put trimmer in direct sunlight or store at a temperature above 140°F.
11. Trimmer is water-safe and can be rinsed under running tap water or used in the shower or bath. Do not submerge trimmer in water.
12. This trimmer is for use on human hair only. Do not use this trimmer for any other purpose.
13. Always store your trimmer attachments and power plug in a moisture-free area. Make sure the cord is disconnected from the trimmer.
14. When using the epilating head, keep it away from the hair on your head, eyelashes, eyebrows, clothing, brushes, wires and cords to prevent accidents, injury or damage.
15. Keep the epilating head away from water.

SAVE THESE INSTRUCTIONS

IMPORTANT: The power plug contains a transformer. Do not cut off the power plug to replace it with another plug as this will cause a hazardous condition.

IMPORTANT

The following information and precautions are important when epilating:

- ▶ **CAUTION:** Methods of removing hair by the root can cause in-grown hairs and minor skin injuries. Please consult your doctor if you have any questions about the use of an epilator.
- ▶ Do not use the epilator head if you suffer from varicose veins, spots or blemishes, or when the skin is irritated or if you have in-grown hairs or a tendency to produce in-grown hairs. Consult your doctor first.
- ▶ **Any minor injury resulting from hair removal may allow bacteria to penetrate the injury site potentially causing small scars or a change in pigmentation of the skin. The risk of infection may be minimized by thoroughly cleaning the rotating discs before and/or after each use. (See Cleaning section).**
- ▶ The epilator should only be used after prior consultation with your doctor if you have or experience:
 - Open wounds
 - Eczema, psoriasis (scaly eczema), inflamed skin reactions such as folliculitis, skin rashes or the tendency to allergy or allergic skin reactions
 - Immune deficiency or disorders
 - Couperose, rosacea, or varicose veins
 - Pregnancy
 - Reduced skin immunity as a result of diabetes, pregnancy, Raynaud's disease, etc.
 - Hemophilia
 - If you have moles, raised skin bumps, etc.
- ▶ If you have been or begin taking hormone medication, or recently been pregnant, a change in your hormone levels may influence the thickness, color or amount of hair growth. This is caused by the hormonal changes, not by this method of hair removal.
- ▶ Clean the epilating head regularly following **CLEANING** instructions.

Put It To The Test

Like many new products, your Philips Grooming System may take a little getting used to. If you are using an electric trimmer for the first time, or if you've been using a different brand, take the time to acquaint yourself with your new Grooming System.

Your Grooming System features styling attachments for maximum precision and visibility to make trimming the bikini line goof proof. We guarantee precise, professional results or Philips will refund you the full purchase price as long as the request is received within 45 days of purchase.

Styling your bikini line without precision comb

Use the precision trimmer without the precision comb to style your bikini line.

- ▶ The precision trimmer trims hair to a length of approximately .24in/0.6mm.
 - ▶ Be creative when styling your bikini line. You can draw and cut out a template, such as a heart shape, to create your own personal style.
- 1 Be certain trimmer is in the OFF position.
 - 2 Remove the precision comb attachment by pressing the hair length selector (1) and sliding the comb upwards (2) (fig. 8).
 - 3 Make sure precision trimmer is on handle.
 - 4 Switch trimmer ON.
 - 5 The trimmer can be used with the precision trimmer teeth pointing toward the skin (fig. 9) or with the flat part of the precision trimmer pointing toward the skin (fig. 10).
 - 6 For best results, move the appliance against the direction of hair growth making sure the precision trimmer is in full contact with the skin (fig. 11).

Be careful when using the precision trimmer without the comb attachment as it removes every hair it touches.

- 7 Make well-controlled movements. Touch the hair/skin lightly with the precision trimmer.

NOTE: To achieve optimal trimming results, it is recommended to use the appliance on dry skin.

Epilating

Use the epilating head to epilate your bikini line.

- ▶ Make sure your skin is clean, free from grease and creams. Do not apply any cream before using. Hairs are easier to remove after a bath or a shower, but your skin should be completely dry before using the epilating head.
- ▶ If your hair is longer than .20in/0.5mm, first trim hair using the precision trimmer with the precision comb at setting #3.
- ▶ With first time use you may feel some discomfort, irritation or experience reddening of the skin. This is because the hairs are actually being removed at the root. The discomfort you feel will tend to lessen with successive uses. However, if the irritation remains for more than three days, consult your doctor.
- ▶ After epilation, regrowth of hairs tends to be softer both in appearance and in touch.

- 1 Be certain trimmer is in the OFF position.
- 2 Put the epilating head on the handle.
- 3 Switch trimmer ON.
- 4 To epilate the most effective way, move the epilating head against the direction of hair growth. Make sure the surface of the epilating head always stays in contact with the skin (fig. 15). For easier epilating, stretch the skin with your free hand.

Do not exert any pressure when epilating.

- 5 Turn off trimmer. Rinse epilating head clean after each use.

Shaving With Micro Shaver

Use the micro shaver to shave along contoured edges to remove any stubble while creating a smooth, well-defined bikini line.

- ▶ Before using the micro shaver, always check it for wear and damage. If the micro shaver shows signs of wear or damage, do not use it as injury may occur. Do not use the micro shaver until it has been replaced.
- 1** Pre-trim the contours desired with the precision trimmer without a comb.
- 2** Remove the precision trimmer from handle (fig. 12).
- 3** Put the micro shaver on the handle.
- 4** Remove the protective cap (fig. 13).
- 5** Switch the trimmer ON.
- 6** Gently press the micro shaver onto the skin and shave against the direction of hair growth along contoured edges to remove any stubble (fig. 14). Do not press too hard.

Trimming Eyebrows With Eyebrow Comb

Use the precision trimmer with the eyebrow comb to trim entire eyebrow to a uniform length.

- 1** Be certain trimmer is in the OFF position.
- 2** Put the precision trimmer on the handle (fig. 3). You will hear a click.
- 3** Slide the eyebrow comb into the guiding grooves on both sides of the precision trimmer and push until it “clicks” into place (fig. 16).
- 4** Press the hair length selector (1) and slide it up or down (2) to the desired hair length setting (fig. 17). The selected setting number will appear on the colored circle on the handle. See Table 2 for settings.
- 5** Comb the eyebrow in the direction of hair growth.
- ▶ If you are trimming for the first time, start by using the comb at the maximum trimming length setting (#3) to prevent accidentally trimming hairs too short.

Table 2. Eyebrow Comb

Setting	Remaining hair length (in.)/(mm)
1	.11 in/3mm
2	.24 in/6mm
3	.35 in/9mm

- 6** Move the eyebrow comb over the eyebrow from the outer tip of the eyebrow towards the base of the nose (fig. 18).
- 7** Turn off trimmer. Rinse eyebrow comb clean after each use.

Contouring Eyebrows With Micro Trimmer

Use the micro trimmer on eyebrows without a comb if you are:

- ▶ Shaping eyebrows
- ▶ Defining eyebrow contours
- ▶ Removing single, unwanted hairs

- 1** Be certain trimmer is in the OFF position.
 - 2** Put the micro trimmer on the handle.
 - 3** Switch the trimmer ON.
 - 4** For contouring eyebrows, stretch the skin of the eyelid (fig. 19). Be careful when you use the micro trimmer as it removes every hair it touches.
 - 5** Make well-controlled movements making sure the micro trimmer is in full contact with the skin. Always move the micro trimmer against the direction of hair growth.
- Be careful not to use the micro trimmer too close to a mirror.

IMPORTANT: Do not try to trim your eyelashes. Be careful not to get too close to your eyelashes and eyes!

- 6** Turn off trimmer. Rinse micro trimmer clean after each use.

Cleaning

- ▶ The trimmer should be cleaned after each use.
- ▶ Always switch trimmer OFF, unplug and remove power supply cord from trimmer before cleaning.
- ▶ Do not use abrasive cleaning agents, scourers or liquids such as alcohol, benzene, bleach or acetone to clean the trimmer and attachments.
- ▶ Never clean, replace or remove attachments with motor ON.
- ▶ Do not apply pressure to cutters.
- ▶ Do not touch cutters with hard objects as this may damage them.

During Use:

- ▶ If cut hairs have accumulated in the attachments, remove hairs by shaking, blowing or using cleaning brush provided. Remember to adjust the hair length selector back to your selected setting when you replace the precision comb on trimmer.

After Each Use:

- 1** Make sure the trimmer is switched OFF and disconnected from the electrical outlet.
- 2** Remove any attachment from trimmer.
- 3** Blow and/or shake out any hair that may have accumulated in the attachment.
- 4** To clean the micro shaver, pull the foil in the direction of the arrow to remove from base of micro shaver (fig. 20).
- 5** Clean the cutter and the inside of the shaving foil carefully with the brush or under warm tap water.

Do not use a towel to dry the micro shaver as damage to the shaving foil could occur.

- ▶ The shaving foil is very delicate. Handle carefully.
 - ▶ If foil becomes damaged, replace immediately. Do not continue using the appliance. Do not apply pressure to shaving foil.
 - ▶ Do not clean the foil with the brush, as this may cause damage.
- 6** Rinse attachments thoroughly under warm tap water.
 - 7** Shake excess water from attachment and allow to dry thoroughly.
 - 8** Place the attachment back on the trimmer.

This trimmer has no other user-serviceable parts. For assistance, call 1-800-243-7884.

Storage

- ▶ Be sure trimmer is turned OFF. Remove cord from outlet and trimmer before storing in a safe, dry location where it will not be crushed, banged, or subject to damage.
- ▶ Do not wrap cord around trimmer when storing.
- ▶ Store cord in a safe location where it will not be cut or damaged.
- ▶ Do not place or store trimmer where it can fall or be pulled into a tub or sink, water or other liquid while plugged in.

PHILIPS

45-DAY MONEY-BACK GUARANTEE

If you are not fully satisfied with your Philips trimmer, send the product back and we'll refund you the full purchase price.

The trimmer must be shipped prepaid by insured mail, insurance prepaid, and have the original sales receipt, indicating purchase price and the date of purchase, enclosed. We cannot be responsible for lost mail. The trimmer must be postmarked no later than 45 days after the date of purchase. Philips reserves the right to verify the purchase price of the product and limit refunds not to exceed suggested retail price.

To obtain money-back guarantee return authorization form, call 1-800-243-7884 for assistance. Please allow 4-6 weeks for delivery of check.

Full Two-Year Warranty

Philips Electronics North America Corporation warrants each new Philips product, Model HP6378, HP6380 against defects in materials or workmanship for a period of two years (cutters for up to four years) from the date of purchase, and agrees to repair or replace any defective product without charge.

IMPORTANT: This warranty does not cover damage resulting from accident, misuse or abuse, lack of reasonable care, the affixing of any attachment not provided with the product or loss of parts or subjecting the product to any but the specific voltage.* Use of unauthorized replacement parts will void this warranty.

PHILIPS ELECTRONICS NORTH AMERICA CORPORATION WILL NOT PAY FOR WARRANTY SERVICE PERFORMED BY A NON-AUTHORIZED REPAIR SERVICE AND WILL NOT REIMBURSE THE CONSUMER FOR DAMAGE RESULTING FROM WARRANTY SERVICE PERFORMED BY A NON-AUTHORIZED REPAIR SERVICE. NO RESPONSIBILITY IS ASSUMED FOR ANY SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES.

In order to obtain warranty service, simply go to www.philips.com or call 1-800-243-7884 for assistance. It is suggested that for your protection you return shipments of product by insured mail, insurance prepaid. Damage occurring during shipment is not covered by this warranty. **NOTE:** No other warranty, written or oral, is authorized by Philips Electronics North America Corporation. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above exclusion and limitations may not apply to you.

*Read enclosed instructions carefully.
