Put It to the Test

Like many new products, your Philips Norelco hair trimmer may take a little getting used to. If you are using a battery operated hair trimmer for the first time, or if you've been using a different brand, your skin may need time to adapt. Give yourself a little time to practice and determine the best motions for the best results.

Throw your scissors away and put your new trimmer to the test. We guarantee precise results or Philips Norelco will refund you the full purchase price as long as the request is received within 45 days of purchase.

Before Using

- ▶ Use this appliance for its intended household use as described in this manual.
- ▶ Before using, check trimmer for wear or damage. If the trimmer shows signs of wear or damage, do not use the trimmer as injury may occur.
- ▶ Be certain that your skin is clean. If you have sensitive skin, you may wish to apply talcum powder before and/or after use.
- ▶ It is not necessary to press hard to get a close result. Pressing too hard may cause skin irritation, and the trimmer will not function properly. In addition, do not use deodorant or alcohol-based lotions immediately before or after using. You may, however, want to use talcum powder.
- ▶ Clean the trimmer after each use. For instructions see chapter 'Cleaning'.
- ▶ If trimmer gets warm during use, turn trimmer off and clean the appliance following the cleaning instructions.
- ▶ Do not use while bathing, showering or immerse trimmer in water or other liquids as damage to the trimmer may occur.
- ▶ For hygienic reasons, it is recommended that the trimmer be used by only one person.
