Versatile styling, ultimate shine

Philips Rotating Volumebrush with 4 attachments

Use Philips Dynamic Volumebrush to create different styles, while keeping hair smooth and shiny. Its 50mm rotating natural bristle brush adds volume and movement while the retractable brush creates defined waves without tangles.

Ultimate shine and condition

- Ionic conditioning prevents frizz, maximizes shine
- Tourmaline ceramic adds more shine to your hair

Volume, body and waves without tangles

- 1000W power for beautiful results
- 50mm round brush adds volume and movement
- 30mm retractable brush for tangle free styling
- The brushes can be rotated in both directions
- 30mm & 38mm round brush for versatile styling and condition

Protects your style, cares for your hair

- Care+ setting for better protection while drying and styling
- Thermo round brushes for smoother, shinier results

Highlights

Ionic care

Ionic conditioning dries hair without building up static. Negatively charged ions are released, reducing frizz, smoothing down the hair's cuticles and intensifying hair's shine and glossiness. The result is shiny, frizz-free hair that looks its best.

Tourmaline ceramic coating

The styler's unique tourmaline ceramic coating protects and revitalizes hair while you style. This special coating conducts heat effectively with no hot spots and adds shine with every stroke.

1000W power

This 1000W airstyler creates the optimum level of airflow and gentle drying power, for beautiful results every day.

50mm round brush

The 50mm thermo brush is the perfect way to add volume, body and shine to your hair. Use on nearly-dry hair to create a beautiful salon blow dry at home.

30mm retractable brush

Use the 30mm brush to add defined waves while keeping hair smooth and shiny. Its retractable bristles make it easy to style without tangles.

Two way rotation

The brush can be rotated in both directions, making it easy to handle and create a variety of styles.

30mm & 38mm round brush

The 30mm & 38mm thermo brush is perfect to shape your waves and add shine to your hair. Use on nearly dry hair to create a beautiful salon blow dry at home.

Care+ setting

The 'Care+' setting ensures the optimum drying temperature and guards against overheating. Hair still dries fast, with the same powerful airflow but at a constant, caring temperature.

Natural bristles

The bristles of the 50mm, 38mm and 30mm thermo brushes are both partially made from natural boar bristles. These mixed bristles help the brush move through the hair more smoothly, reducing static, increasing shine and preventing tangles.
