Highlights

3D contour-following comb

The unique 3-dimensional contour-following comb closely follows every curve giving you fast and comfortable results.

Corded and cordless use

Use your product corded or cordless with the recharged battery for maximum power and freedom.

Diamond-like carbon technology

The innovative Diamond-like carbon technology ensures the cutting element stays sharper longer.

Multi-functional display

The multi-functional display shows battery status, chosen length setting in millimetres and whether the hair thinning option is on or off

Powerful Lithium-Ion battery

This product has a powerful lithium-ion battery with quick charge so you can charge the product in only 1 hour and get 50 minutes of use.

Storage case

The high quality case provides a storage solution for all the accessories and protects them from damage

Skin friendly

The uniquely rounded blades and comb tips prevent scratching the skin.
