# Highlights

## Precision Wheel Interface

The Precision Wheel interface gives you precise feedback on the selected length. Experience the empowering feeling of the Precision Wheel and easily select more than 400 length settings. Quickly browse through lengths or slowly go through each small step of 0.1 mm.

## 400 lock-in length settings

Use the Precision Wheel to precisely select and lock-in the length you want, with more than 400 length settings from 1 to 42mm, and precisely 0,1mm between each length. Or you can use it without the comb for a close 0.5mm trim.

## Titanium blades

The advanced Titanium blades are harder than steel for ultimate durability. In addition, the blades are self-sharpening to ensure long-lasting performance and accurate cutting, time after time.

## Motorized Combs

The motor powered length setting system easily selects and locks in the preferred length. The motor powers the comb and allows selecting between lengths with a precision of up to 0.1mm. This innovative technology gives you the security of clipping all the time at the desired length and achieving consistent results time after time.

## ProMotor

The clipper comes with a durable ProMotor designed to give more power, boosting cutting speed for a perfect cut even on the thickest hair.

## DualCut Technology

Power through any hair type with our advanced DualCut Technology, which combines a double-sharpened cutting element with low-friction engineering. The innovative cutting element is designed to cut hair twice as fast as regular Philips clippers, with the added confidence of a robust steel guard for ultimate durability.

## Memory Function

This smart clipper remembers your last cutting length and can save 3 others for each comb attachment you put on. Select your preferred length, hold the memory button pressed and the clipper will immediately memorise your setting. You can do this for three different lengths.

## Charging stand & storage pouch

The clipper comes with a stand that makes charging easier and more convenient and with a travel pouch for easy storage.
