- Compact design for easy handling
- Easy storage hook for convenient storage
- 1.5 m power cord

Highlights

Specially designed for Asians

Specially designed for Asians

1600W for gentle drying

This 1600W hairdryer creates the optimum level of airflow and gentle drying power, for beautiful results every day.

EHD+ technology

Advanced Philips EHD+ technology means that your dryer will always distribute the heat very evenly – even at high temperatures, and prevents damaging hot spots. This gives added protection and thus helps to keep your hair healthy and shiny.

Six flexible speed and temperature settings

The speed and heat required can be easily adjusted to create the perfect style. Six different settings ensure full control for precise and tailored styling.

Foldable handle

This hairdryer benefits from a foldable handle. The result is a small, compact hair dryer that will easily pack into the smallest spaces and you can take virtually anywhere.

1.5 m power cord

1.5 m power cord

Narrow concentrator

The concentrator of the hair dryer works by focusing the flow of air through the opening onto specific areas. This results in precise styling and is great for touch ups or to finish a hair style.
