# Highlights

## ComfortCut heads

ComfortCut heads have rounded edges that glide smoothly on your skin, so you always get a close, yet comfortable shave.

## Cordless and corded use

An efficient, powerful lithium-ion battery gives you more shaves per charge. You'll have up to 40 minutes of shaving time – that's around 14 shaves, after 8 hours of charging. Plug it in for 3 minutes and you'll have enough power for one shave.

## Flexing heads

The flexing heads keep the shaving surface in close contact with your skin for a fast and efficient shave.

## Fully washable heads

Simply pop the heads open, and thoroughly rinse under the tap.
