Highlights

2000 Watt dryer

The combination of heat and superior airflow brings you the quickest way to dry your hair.

6 heat/speed settings

3 heat/2 speed settings give 6 possible settings to dry and pre-style your hair the way you like it.

Volume diffuser

The volume diffuser dries hair healthily, reduces frizz and increases volume by spreading the airflow across the hair. It adds lift and maximises volume, especially when used on the crown and root area, making it perfect for creating curls and bouncy styles
