Hair clipper

Hairclipper series
7000

Titanium Blades

41 length settings

60mins cordless use/1h charge

QC5390/15

Expert Precision

This Philips hair clipper is designed for maximum precision, with a digital display and the most length settings on the market. One quick charge provides up to 60 minutes of cordless use. For your exact style, every time.

Expert Precision

- Digital display shows length settings
- Easy to select and lock in 41 length settings - 0.5 to 42 mm

Performance

- Superior cutting performance with titanium-coated blades
- Up to 60 min of cordless power after 1 hour quick-charge.

Easy to use

- Contour-following comb follows every curve of your head.
- Easy to clean
- Shows the battery status
- 2- year guarantee, worldwide voltage, no oil needed

Highlights

Titanium blades

Advanced titanium blades for superior cutting performance and long-lasting sharpness

Built to last

All of our grooming products are built to last. They come with a 2 year worldwide guarantee, worldwide voltage compatibility, and they never need to be oiled.

100% waterproof

Simply pop the head open and rinse clean this waterproof beard trimmer under running water.

Follows every curve

The hair clipper gently follows the contours of your head for a fast, even and comfortable haircut.

Battery light

The light is continuously lit to indicate a full battery, and blinks orange when you have about 10 minutes left of usage.

Digital display

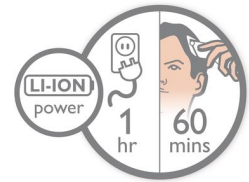

The digital display shows the chosen length setting in millimeters, so you're always in control of your style. It also indicates if the battery needs to be charged, so you're never caught short.

Zoom wheel length settings

Turn the zoom wheel to select and lock-in the length setting you want. The two adjustable combs provide 41 length settings from 3 mm to 42mm, with precisely 1mm between each length. Or you can use it without a comb for a close 0.5mm trim.

Li-ion battery power

Use with or without cord for flexibility. The powerful lithium ion battery lasts for up to 60 minutes after a 1 hour charge. A quick 10 minute charge gives you 10 minutes of clipping time, so it's always ready when you are.
