# Highlights

## Ionic care

Static electricity exists everywhere especially in dry environment. That's why your hair gets frizzy and messy easily. To help you get rid of this annoying issue, we bring easier solution: ionic brush. The ionizer generates negative ions to neutralize positive charge of static electricity. It helps to reduce frizz and bring back smoothness and shine to your hair instantly. To improve the ion diffusion on hair, we keep the ionizer close to the cushion, which allows to spread ion on hair more efficiently when you brush. Keep neat look anytime, anywhere from now on!

## Smooth brush pad

Smooth brush pad is designed to disentangle more efficiently thanks to its thin, soft and resilient bristles with different length. It helps to reduce significantly hair breakage and hair loss which are normally caused by pulling too hard to get comb through the tangled hair.

Amazingly, you would find combing experience would be very much alike caressing that you would not feel a lot of pulling or pain as before, and hair gets reshaped and smooth faster.

## Massage brush pad

Massage brush pad is designed for you to have a quick and simple scalp massage. It has soft and thick bristles with micro fingers on tips, which enables wide and gentle touch on scalp. And the concave design follows better contour of head. Combing for 1-2 min, blood circulation would be stimulated, and you would feel more relaxed and refreshed.

## Detachable brush pads

Both brush pads can be easily detached so that you may clean it with water regularly to keep bristle clean. Better leave it in open air until totally dried before put it back on device.

## Compact & quality design

Compact size brush can fit for your make-up pouch and small bags. The eye-catching silhouette, trendy leather-like cover and fresh color makes it not only a brush, but an iconic beauty accessory with excellent performance.

## Ergonomic shape

If you're looking for the handle of brush, our advice would be: you don't need a handle using Philips ionic styling brush! Philips always designs around you. The ergonomically curved shell fits excellently women's hand, ensuring great handling experience.
