# Highlights

## Unique OneBlade technology

The Philips OneBlade has a revolutionary technology designed for facial styling and body grooming. It can trim, edge and shave – any length of hair. Its dual protection system – a glide coating combined with rounded tips – makes shaving easier and comfortable. Its shaving technology features a fast-moving cutter (200x per second) so it's efficient – even on longer hairs.

## Trim it down

Trim to your preferred stubble length. Your Philips OneBlade comes with a precision comb with 12 lengths that you can use to create everything from a 5 o'clock, to tight trim, to longer beard style.

## Edge it up

Get the perfect lines in seconds with the dual-sided blade, enabling you to see every hair you're cutting.

## Shave it off

The OneBlade doesn't shave as close as a traditional blade, ensuring your skin stays comfortable. Go against the grain and easily shave off any length of hair with this sensitive skin hybrid styler.

## 12-length precision comb

Philips OneBlade Pro allows you to trim to your preferred hair length with 12 different settings from 0.5mm to 9mm.

## Dual-sided blade

Easily shave and trim to the contours of your face. The dual-sided blade for face allows you to style your edges and create clean lines in all directions.

## Durable OneBlade

Durable Philips OneBlade that you only need to replace every 4 months\* for optimal performance.

## Wet & dry

Use at the sink or take it with you into the shower. The Philips wet and dry OneBlade is easy to clean and can be used with or without foam.

## 90 min Li-Ion battery

A single charge of the Li-Ion battery takes 1 hour, and delivers 90 minutes of constant performance.
