- Straightener: Handle lock system for easy storage
- Straightener: 1.8m power cord length

PHILIPS

Highlights

Ionic Care

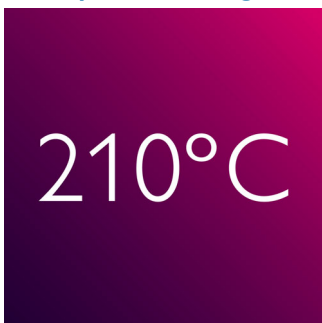

Give your hair an instant care with ionic conditioning. Charged negative ions eliminate static, condition the hair and smooth down the hair cuticles to intensify the hair's shine and glossiness. The result is smooth and frizz-free hair that shines beautifully.

Ceramic plates

Ceramic is microscopically smooth and durable by nature, and is therefore one of the best materials for straightening plates. The ceramic plates are carefully processed to enhance the gliding and caring properties of the ceramic, giving you perfect shiny hair.

210°C professional high heat

This high temperature enables you to change the shape of your hair and gives you that perfect look you want.

Fast heat-up time

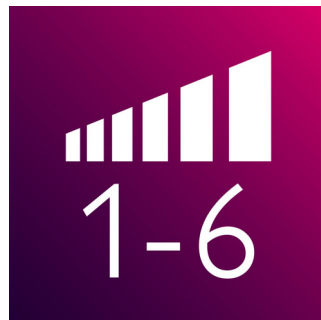

Straightener: Fast heat-up time, ready to use in 30 seconds

Extra wide plates

These extra wide straightening plates have been designed especially for thick or long hair. The increased plate width can straighten more hair in one go and will help achieve the results you wanted in less time.

6 heat/speed settings

Dryer: 6 heat/speed setting for full flexibility
