Highlights

Ionic Care

Give your hair instant care with ionic conditioning. Charged negative ions eliminate static, condition the hair and smooth down the hair cuticles to intensify the hair's shine and glossiness. The result is hair that is beautifully shiny, smooth and frizz-free.

SilkySmooth ceramic plates

Ceramic is microscopically smooth and durable by nature, and is therefore one of the best materials for straightening plates. The SilkySmooth plates are carefully processed to enhance the gliding and caring properties of the ceramic, giving you perfect shiny hair.

ThermoGuard

Prevent unintentional heat exposure with ThermoGuard, by increasing the temperature in steps of just 5°C above 200°C.

Digital settings

Digital settings with adjustable heat to get smooth results with all hair types

Instant heat up

The straightener has a fast heat up time, being ready to use in 30 seconds

Handle closing lock

The straighteners have a closing lock mechanism located at their base, which locks the plates, making storage quick and easy, and helps to protect the straighteners from accidental damage.
