Highlights

Unique OneBlade technology

The Philips OneBlade has a revolutionary technology designed for facial styling and body grooming. It can trim, edge and shave any length of hair. Its dual protection system – a glide coating combined with rounded tips – makes shaving easier and comfortable. Its shaving technology features a fast-moving cutter (200x per second) so it's efficient – even on longer hairs.

Trim it down (Face + Body)

Trim your beard to an even length with the included adjustable precision comb. Dial up one of the 14 lock-in length settings to get everything from a 5 o'clock shadow, to a tight trim, to a longer beard style. Trim your body hair in any direction with the click-on body comb (3 mm).

Edge it up

Get the perfect lines in seconds with the dual-sided blade, enabling you to see every hair you're cutting.

Shave it off

The OneBlade doesn't shave as close as a traditional blade, ensuring your skin stays comfortable. Go against the grain and easily shave off any length of hair with this sensitive skin hybrid styler. Includes two blades – one for face, and one for body.

Guard

Attach the skin guard for an extra layer of protection on sensitive areas.

Click-on body comb

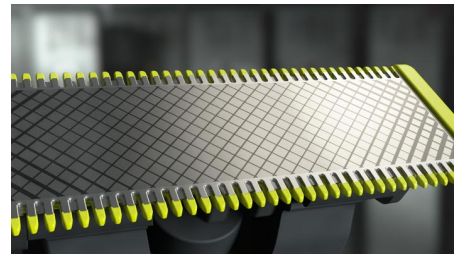

Simply attach the 3mm body comb to trim in any direction.

14-length precision comb

The versatile precision trimming comb offers length settings from 0.4mm to 10mm, giving you an even trim at exactly the length you want.

Dual-sided blade

Easily shave and trim to the contours of your face. The dual-sided blade for face allows you to style your edges and create clean lines in all directions.

Durable OneBlade

Durable Philips OneBlade that you only need to replace every 4 months* for optimal performance.
