# Highlights

### Extra-sensitive brush

The brush comes with ultra-soft bristles to give you an extra-gentle cleansing experience with less skin irritation. The bristles are thin, longer\* and more flexible, thereby ensuring less friction on the skin for a very soft feel and gentler cleansing effect. The ends of the bristles have been polished twice for a gentler flow over the skin. An extra-gentle way to clean and healthy-looking skin.

### Increases absorption of creams

Cleansing with VisaPure means that you remove more make-up residue and dull and dead skin cells. Thanks to the deep cleansing effect, your favourite skincare products such as creams, serums and essences are better absorbed by the skin.

### Face cleansing brush bristles

All VisaPure brushes have unique 5-in-1 bristle technology. Each bristle is polished twice and silky-soft ends ensure a smooth glide. VisaPure bristles are extra long for absolute skin comfort. To ensure efficacy, VisaPure bristles are up to 3 x smaller than your pores and the dense brush reaches more pores in one treatment to give a soft, luxurious feel whilst cleansing. The bristle material is specially selected to be water resistant.

### Click-on brush head

Simply click the brush head on and off. Easy to fit, our brush heads are compatible across all Visapure models.

### Replace every 3 months

For best results, replace the brush every 3 months. The brush is easy to replace by simply pulling it off the device.
