Brush head for deep pore cleansing

For clean and soft skin

The Deep pore brush head deeply cleanses the pores. It helps to reduce blackheads and is designed to reduce the appearance of pores, thanks to the ultra-thin bristles, which are smaller than your pores.

Developed for all skin types with enlarged pores

- Deep pore brush for all skin types

Deep gentle cleansing

- Increases the absorption of your favourite skincare products

Easy to replace

- Click-on brush head; easy to put on and take off
- Replace every 3 months

5-in-1 bristle technology

- Unique composition of face cleansing brush bristles

Highlights

Deep pore brush

Deep pore brush reduces and prevents visibility of pores and blackheads. The brush comes with a unique combination of thicker and thinner bristles. The thin bristles reach the pores and cleanse them well, while the thicker bristles swipe away the dirt. Prevents and reduces the appearance of pores in 9/10 women.*

Increases absorption of creams

Cleansing with VisaPure means that you remove more make-up residue and dull and dead skin cells. Thanks to the deep cleansing effect, your favourite skincare products such as creams, serums and essences are better absorbed by the skin.

Face cleansing brush bristles

All VisaPure brushes have unique 5-in-1 bristle technology. Each bristle is polished twice and silky-soft ends ensure a smooth glide. VisaPure bristles are extra long for absolute skin comfort. To ensure efficacy, VisaPure bristles are up to 3 x smaller than your pores and the dense brush reaches more pores in one treatment to give a soft, luxurious feel whilst cleansing. The bristle material is specially selected to be water resistant.

Click-on brush head

Simply click the brush head on and off. Easy to fit, our brush heads are compatible across all Visapure models.

Replace every 3 months

For best results, replace the brush every 3 months. The brush is easy to replace by simply pulling it off the device.
