PHILIPS

Highlights

ThermoProtect temperature

The ThermoProtect temperature provides the optimal drying temperature and gives additional protection from overheating the hair. With the same powerful airflow, you will get the best results in a caring way.

6 heat/speed settings

Dryer: 6 heat/speed setting for full flexibility

Professional 2100W

Dryer: Professional 2100W for perfect salon volume

Natural looking curls

With the barrel diameter of 25 mm you can achieve a trendy curly look by creating natural looking, loose curls like no effort went into it.

200°C professional temperature

This high temperature enables you change the shape of your hair, and gives you that perfect look you want

Slim styling nozzle

Perfect styling results and a shiny, polished look with a slim styling nozzle for precise styling.
