HP4891/30

The dryer hairdressers would use at home SalonPro

Want to dry your hair like the professionals? The SalonPro – with 2100W of superior drying power – is the hairdryer you need if you're looking to recreate that salon style blow dry.

Easy to use

- Nine flexible speed and temperature settings for maximum control
- LED lights indicate the chosen setting

Long lasting styles

- Cool shot sets your style

Beautifully styled hair

- Powerful 2100 Watt motor
- Ceramic diffuser for additional protection and volume

Less Hair Damage

- Ceramic element to smooth your hair
- Ion conditioning for shiny, frizz free hair

Highlights

Ceramic element

The ceramic element is included to prevent overdrying. It issues infrared heat, which has a gentle warmth which helps dries your hair from within and protects it from overdrying, without compromising on speed and effectiveness.

Ion conditioning

Give your hair an instant boost with ionic conditioning. Charged negative ions eliminate static, condition the hair and smooth down the

hair cuticles to intensify the hair's shine and glossiness. The result is hair that is beautifully shiny, smooth and frizz-free.

Nine flexible speed and temperature settings

The speed and heat required can be easily adjusted to create the perfect end result. Nine different settings ensure maximum control for precise and tailored styling.

2100 Watt professional performance

The combination of heat and superior airflow brings you the quickest way to dry your hair.
