Less Hair Damage

- Protective ceramic coating with Keratin infusion
- ThermoProtect temperature setting
- Ionic conditioning for shiny, frizz-free hair

Easy to use

- Elegant, feminine design emphasising performance and quality
- 1.8 m power cord
- Easy storage hook for convenient storage

PHILIPS

Highlights

Care for your hair

Protective ceramic coating with Keratin infusion, for better care of your hair

Ionic conditioning

Give your hair instant care with ionic conditioning. Charged negative ions eliminate static, condition your hair, and smooth the hair cuticles to intensify hair's shine and glossiness. The result is smooth and frizz-free hair with beautiful shine.

Premium Design

This hairdryer embodies a modern, sophisticated approach to design. Soft, fluid contours and elongated proportions subtly communicate femininity while precision detailing and high quality materials and finishes are evidence of the product's superior performance.

ThermoProtect temperature

The ThermoProtect temperature provides the optimal drying temperature and gives additional protection from overheating the hair. With the same powerful airflow, you will get the best results in a caring way.

Professional 2200W

This 2200W professional hairdryer creates a powerful airflow. The resulting combination of power and speed makes drying and styling your hair quicker and easier.

Speed and temperature settings

The speed and heat required can be easily adjusted to create the perfect style. Six different settings ensure full control for precise and tailored styling.

Ultra slim styling 11mm nozzle

The ultra thin styling nozzle concentrates the flow of hair through the 11mm nozzle for precision styling on specific areas. Great for touch ups or to set your style.

Volume diffuser

The volume diffuser dries hair healthily, reduces frizz and increases volume by spreading the airflow across the hair. It adds lift and maximises volume, especially when used on the crown and root area, making it perfect for creating curls and bouncy styles

Turbo boost

The turbo boost button increases the airflow, to dry your hair even quicker.

Cool Shot

A must-have professional function for hair stylists. The Cool Shot button provides an intense burst of cold air. It is used after styling to finish and set the style.

1.8 m cord

Convenient to use thanks to the 1.8m power cord length.

Easy storage hook

The rubberised hook is located at the base of the handle and provides another storage option, particularly convenient for use in the home or when staying at a hotel.

Removeable air inlet filter

The removeable air flow filter of your hairdryer is easy to maintain. Simply click off to clean. Doing this regularly will prevent build up of dust and hair that can affect drying performance.
