Highlights

Unique OneBlade technology

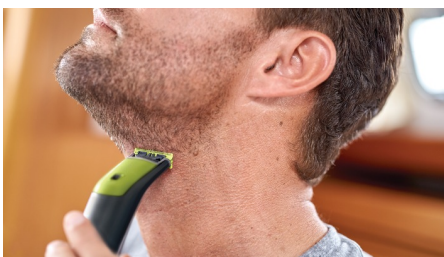

The Philips OneBlade has a revolutionary technology designed for facial styling and body grooming. It can trim, edge and shave any length of hair. Its dual protection system – a glide coating combined with rounded tips – makes shaving easier and comfortable. Its shaving technology features a fast-moving cutter (200x per second) so it's efficient – even on longer hairs.

Trim it down

Trim to your preferred stubble length. Your Philips OneBlade comes with a precision comb with 12 lengths that you can use to create everything from a 5 o'clock, to tight trim, to longer beard style.

Edge it up

Get the perfect lines in seconds with the dual-sided blade, enabling you to see every hair you're cutting.

Shave it off

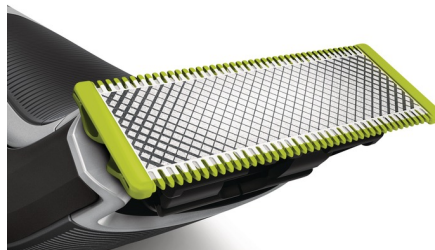

The OneBlade doesn't shave as close as a traditional blade, ensuring your skin stays comfortable. Go against the grain and easily shave off any length of hair with this sensitive skin hybrid styler.

Contour following

Philips OneBlade for the face follows your facial contours allowing you to effectively and comfortably trim and shave all areas of your face.

Dual-sided blade

OneBlade follows the contours of your face, allowing you to effectively and comfortably shave all areas. Use the dual-sided blade to style your edges and create clean lines by moving the blade in any direction.

9-length precision comb

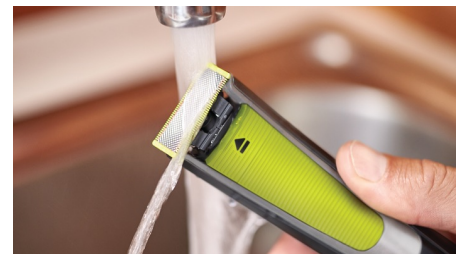

The versatile precision trimming comb offers length settings from 0.5mm to 7mm, giving you an even trim at exactly the length you want.

Durable OneBlade

Durable Philips OneBlade that you only need to replace every 4 months* for optimal performance.

Wet & dry

Use at the sink or take it with you into the shower. The Philips wet and dry OneBlade is easy to clean and can be used with or without foam.
