# Highlights

## 210°C professional high heat

This high temperature enables you to change the shape of your hair and gives you that perfect look you want.

## 6 heat/speed settings

Dryer: 6 heat/speed setting for full flexibility

## Ceramic plates

Ceramic is microscopically smooth and durable by nature, and is therefore one of the best materials for straightening plates. The ceramic plates are carefully processed to enhance the gliding and caring properties, giving you perfect shiny hair.

## Professional 2100W

Dryer: Professional 2100W for perfect salon volume

## Fast heat up time

The straightener has a fast heat up time, being ready to use in 60 seconds

## ThermoProtect temperature

The ThermoProtect temperature provides the optimal drying temperature and gives additional protection from overheating the hair. With the same powerful airflow, you will get the best results in a caring way.
