

KeraShine high performance styler

**Ceramic Keratin** 

BHH777/20

# Easily straightens and creates waves

The Philips KeraShine "Tulip" makes it easy to straighten and create loose waves. The unique Tulip shape and keratin-infused styling plates allow you to achieve the beautiful styles you desire with less risk of hair damage.

### Beautifully styled hair

- ${}^{\textstyle \bullet}$  Uniquely designed for straightening or creating loose waves
- ${\boldsymbol{\cdot}}$  Smooth styling with Keratin infused ceramic plates
- Professional styling temperature

#### Ease of use

- Automatic clip to create loose waves
- Protects against accidental burns
- Slim handle and small size designed for Indian consumers.
- Ready to style in 30 seconds

# Highlights

#### **Tulip shape**

The Tulip styler has a unique, innovative shape where you can easily create straight hair or waves, even at the back of your head.

#### Clip and create waves

The styler allows you to clip and create waves in one easy motion. Automatically clip your hair, rotate the device, and pull downward to easily create loose waves.

#### Heat safe design

The styling plates are protected by the outer housing and innovative design of the styler. This significantly reduces the risk of burns during your styling routine.

#### **Light and compact**

The styler has been designed to be light, comfortable to use, and compact. Its slim handle and small size makes it perfect to carry around, and has been designed for Indian consumers.

#### **Keratin ceramic coating**

The keratin infused ceramic plates ensure smooth and easy styling for shiny and soft hair.

#### 200°C styling temperature

A professional temperature of 200°C guarantees salon-quality results even on thick hair

### Rapid heat-up time

The Tulip styler rapidly heats up and is ready to style within 30 seconds.
