### Precise styling

- Adjusts to different length settings
- A precision step to match every beard

### Easy to use

- Lights indicate when battery is low, empty, full or charging
- Cordless use for up to 90 mins
- Easy but thorough cleaning
- Warranty for purchase protection

# Highlights

## Lift & Trim PRO system

Stubble doesn't stand a chance. The Lift & Trim Pro system captures all your low-lying hairs and lifts them up towards the blades for a precise cut — plus it's still an ideal trimmer for long beards.

## Self-sharpening metal blades

Suitable for even the thickest hair, the double-sharpened blades guarantee precision edges and superior trimming every time. No oil or replacement blades required.

## 40 lock-in length settings

Cut to the exact length you're after. Just spin the precision dial to one of 40 length settings between 0.4-10 mm in 0.2 mm increments.

## Customisable precision

Personalise your grooming routine with precise-styling steps to suit every beard. There are 0.2 mm steps between 0.4-2 mm for short beard styling, 0.5 mm steps between 2-5 mm to achieve an even 3 day beard and 1 mm steps above 5 mm for long beard maintenance.

## Precision trimmer

Add extra definition to the details, even in hard to reach areas, with the click-on precision trimmer.

## 90 min corded/cordless use

Don't get tangled up in your stubble trimmer — a 1 hour charge provides up to 90 minutes of cordless grooming time. Or keep it plugged in for uninterrupted trimming. The 5 minute quick charge function gives you enough power for one trim.

## 100% waterproof

The 100% waterproof beard trimmer, simply rinse it under the tap for a thorough, easy clean.

## Battery indicators

The battery indicators in this trimmer let you know what your battery status is: low, empty, charging or full. This way, you can fully charge your trimmer on time, so you won't end up with an empty battery in the middle of your trim.

## Built to last

All of our grooming products are built to last. They come with a 2 year warranty, never need to be oiled and are compatible with any voltage worldwide.
