# Highlights

## Personalised shaving advice

The Grooming app's personalised Shaving Advice provides you with a tailored recommendation on how to maximise your shave, based on beard growth and skin sensitivity across various areas of your skin. We have developed the professional advice after listening to millions of men around the world with the collaboration of professional experts with decades of experience in the area of shaving.

## Tips, tricks and tutorial videos

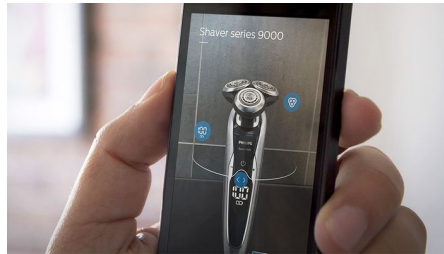

The Grooming app's Shaving Guide offers a comprehensive how-to section, combining valuable tips and tricks with easy-to-follow step-by-step tutorial videos, covering dry shaving, wet shaving, how to prevent skin irritation and more. The app also features an extensive how-to section for styling, providing detailed guidance on everything there is to know about creating and maintaining a variety of beard styles and moustaches, again including clear tutorial videos and expert tips.

## Style previews on your face

The Philips Grooming app also allows you to try before you style. In real time, you can photo-realistically preview a variety of styles. Try and see more than 20 different beard styles and moustaches directly on your face, simply by taking a picture.

## Interactive product guide

The Grooming app's interactive product guide helps you to explore the latest shaver innovations, such as the Philips Shaver series 9000, directly from the app. The guide allows you to easily get familiar with even the most advanced features, helping you to shave like a pro.

## Expert Style Advice

The Philips Grooming app offers you personal advice on which styles would suit you best. Sourcing a variety of different beard styles and moustaches, a state-of-the-art algorithm developed with barbers and international style experts provides a tailored recommendation based on your facial features, beard growth, fashion choices and lifestyle preferences.

## Available for iOS and Android

The Grooming app is compatible with your iOS-operated iPhone and iPad, as well as with Android-operated smartphones, including the Samsung Galaxy S3, Galaxy S4 and Galaxy S5, Google Nexus 5, LG G2, Sony Xperia Z2 and HTC One M8.
