Perfect style at constant caring temperature

The Philips ProCare straightener protects the hair from overheating, due to its newly developed Dual-Care™ plates, with constant temperature and EHD Technology™

Beautifully styled hair

- Ceramic plates for smooth gliding and shiny hair

Less hair damage

- Healthy hair without hotspots with Even Heat Distribution
- More care with ion conditioning for shiny, frizz-free hair
- Healthier restyling with autosections to gentler temperature
- Caring and efficient straightening with constant temperature

Ease of use

- Automatic shut-off after 60 min
- Closing lock to close the handle for easy and safe storage
- 1.8 m power cord
- No more accidental change of settings with key-lock function
- Fast heat up time, ready to use in 15 seconds
- Universal voltage

Highlights

Even Heat Distribution

Advanced Philips EHD+ technology means that your styler will always distribute the heat very evenly - even at high temperatures, and prevents damaging hot spots. This gives added protection and thus helps to keep your hair healthy and shiny.

Constant temperature

This straightener keeps a more constant temperature. Thanks to its high-performance heater it allows you to straighten your hair at a more caring temperature while getting the exact style you want!

Instant heat up

The straightener has a fast heat up time, being ready to use in 15 seconds

Ceramic plates

Ceramic is microscopically smooth and durable by nature and it is one of the best materials for straightening plates. The plates glide effortlessly through your hair, giving you perfect shiny hair.

Key-lock function

You are always in control. No more accidental switching on/off of the styler or temperature change with the Key-lock function. To unlock, press the button for 3 seconds.

Style refresh

Automatic setting for healthy restyling. Maintain your style all day, while respecting the quality of your hair
