- Fast heat up time, ready to use in 30 seconds
- Automatic shut-off after 60 min
- Dual voltage for worldwide use
- Easy storage hook
- Easy lock for convenient storage
- 1.8 m power cord

# Highlights

## Wide plates

These extra wide straightening plates have been designed specifically for thick or long hair. The increased plate width can straighten more hair in one go and will help to reduce the time taken.

## 220°C professional temperature

This high temperature enables you change the shape of your hair, and gives you that perfect look like you've just come from the salon.

## EHD+ technology

Advanced Philips EHD+ technology means that your styler will always distribute the heat very evenly - even at high temperatures, and

prevents damaging hot spots. This gives added protection and thus helps to keep your hair healthy and shiny.

## Ceramic plates

Ceramic is microscopically smooth and durable by nature and it is one of the best materials for straightening plates. The plates glide effortlessly through your hair, giving you perfect shiny hair.

## Dual voltage

Dual voltage for worldwide use

## Instant heat up

The straightener has a fast heat up time, being ready to use in 30 seconds

## Safe usage

Some hair straighteners and curling irons have been equipped with an automatic shut-off feature. This feature has been designed to provide peace of mind. If left on, the appliance will automatically switch off after 60 min.

## Easy lock

Easy lock for convenient storage

## 1.8 m cord
