# PHILIPS

# Highlights

## Inner pot with handles

Easy carrying out the innerpot when you cook different varieties.

## Automatic keep warm

Keep warm function automatically starts to work after rice is cooked and ensures your rice remains hot and fluffy for up to 48 hours

## Extra thick alloy

Extra thick alloy ensures every grain is cooked perfectly

## Smart 3D heating system

Smart 3D heating system cooks the rice from all directions, delivering great tasting rice grain by grain

## stainless steel body

Durable stainless steel body for long lasting performance

## Detachable inner lid

Detachable inner lid for easy cleaning

## Evenly cooking

Outer layer contains copper element for even cooking

## Extra Large capacity

Extra large 2.0L capacity, ideal to serve up to 14 people

## High gloss coating

High gloss coating for easy cleaning

## Bakuhanseki coating

Bakuhanseki coating: it's up to 6 times more durable than non-stick coating on conventional rice cooker. Bukuhanseki is natural stone and contains minerals and micro-nutrient elements which are all essential to a healthy human body. (\*Philips rice cooker inner pot is made of 5-layer Bakuhanseki while conventional rice cooker inner pot is made of non-stick coating)
