- Large 0.8 kg capacity
- Universal EasyClick handle - easily exchange accessories

PHILIPS

Highlights

Healthier frying

The unique Philips TurboStar generates fast superheated air to fry your food with little to no added oil. Philips Airfryer also creates less smell than conventional fryers, it is easy to clean, safe and economical for your daily use!

QuickClean basket

With Philips' Airfryer QuickClean basket which includes a removable non-stick mesh, cleaning becomes easier and faster. The removable nonstick coated drawer and the food basket are dishwasher safe for easy cleaning. Philips Airfryer with TurboStar technology saves you and your home from the smell of fried oil compared to a regular fryer.

Small in size, big in capacity

Airfryer has been thoughtfully designed for your kitchen. It allows you to save space on your counter top while still enabling to cook large amount of food (800 gr of fries).

Cooks fried food 50% more even

The unique TurboStar technology swirls hot air continuously through the whole cooking chamber, resulting in even heat distribution throughout the entire basket. "TurboStar achieves the most optimal airflow so food cooks 50% more evenly"

Crispy and tender results

Thanks to Philips TurboStar technology, all food is exposed to this constant, circulating heat and is cooked through simultaneously. The result is evenly fried food – with no turning needed - even when food is piled up. In addition to the heated air flow, powerful direct heat from above quickly crisps the food for delicious, golden-brown results. "Crispy on the outside, tender on the inside"

Inspiring recipes

The Philips Airfryer app is free and filled with delicious recipes and easy to follow step-by-step cooking instructions. Get inspired with quick, healthy snacks or meals for special occasions.

Specifications

Technical specifications

- Voltage: 120 V
