Design

- Color: Silver
- Colour: Glossy Silver
- Materials and finishing: Plastic Front/Top + Metal sides/rear

Weight and dimensions

- Weight of product: 15 kg

Technical data

- Power: 1400 W
- Voltage: 230 V
- Pump Pressure: 15 bar
- Frequency: 50 Hz

Finishing

- Material boiler: Stainless steel (Inox)
- Material of main body: Stainless steel & plastic
- Material drip tray: Stainless steel
- Material water tank: Plastic

Service

- 2-year guarantee

Sustainability

- Power consumption brewing: 1400 W

Highlights

Removable brewing group

Efficiency and ease of use were key inspirations when Saeco invented the first brewing group 30 years ago. And to this day, it still proves to be an inspired, resolute piece of technology. As always, it's so simple to clean – just remove it and wash it under the tap for a few seconds, then re-insert it just as easily.

Memo Function

Once you've chosen your ideal strength from the 5 different settings, you can easily save it with the Memo Function, as well your desired length and temperature. Then every cup in the future will be customised exactly to your taste. You'll never have to remind it again, unlike the local barista.

Automatic Milk Frother

The Automatic Milk Frother will deliver your coffee's crowning glory at the touch of a button. Within seconds it will be topped with a silky, milk layer of the finest consistency - the ultimate lure for all cappuccino lovers.
