

Philips
One-touch espresso
maker

HD5730/10

So simple, so delicious

Push once for your perfect cappuccino or macchiato

Philips' premium one-touch espresso maker gives you delicious cappuccino at the push of a button: milk is frothed and added to your coffee automatically. And the sleek, stainless-steel design means the machine looks great from any angle.

Total convenience

- Automatic flushing before and after use
- Easily removable and rinsable brewing unit
- Hot water dispenser for hot beverages
- Automatic cleaning and descaling programs
- Easily accessible water tank on the front

Self-explanatory display

- Programmable auto start (wake-up)
- Sensors alert when action needed (e.g. fill tank, descale)
- Preferred settings can be saved
- Easily adjustable settings (volume, strength, temperature)

PHILIPS

Highlights

Easy cappuccino

Philips' new one-touch espresso maker gives you delicious espresso variations, like cappuccino and latte macchiato, at the push of a button. Beans are ground freshly each time by the automatic grinder. Then, milk is frothed and added to your coffee automatically, so you never have to jiggle the jug under the steam spout. What's more, the unique milk container clicks easily onto the machine, fits perfectly in the fridge and can even be cleaned in the dishwasher. Simply push once and enjoy your favourite espresso variations at home in a matter of moments.
