Easy to use

- 2.5m cord

Beautifully styled hair

- Six flexible speed and temperature settings for full control
- Professional 2500W for perfect salon results
- Narrow concentrator for focused airflow
- CoolShot sets your style
- Volume diffuser enhances volume, for curls and bouncy styles
- Quick salon results

Time saving

- 50% more airflow (32l/s) for faster drying

Highlights

50% more airflow

The highest drying power ever, 50% more airflow (32l/s) for faster drying

Professional 2500W

This top of the range 2500W professional hairdryer creates a very powerful airflow. The resulting combination of high power and top speed makes drying and styling your hair much quicker and easier.

Six flexible speed and temperature settings

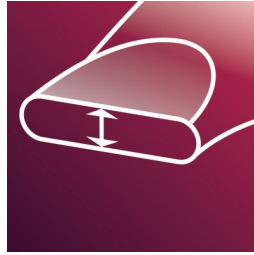

The speed and heat required can be easily adjusted to create the perfect style. Six different settings ensure full control for precise and tailored styling.

Volume diffuser

Volume diffuser enhances volume, for curls and bouncy styles

Narrow concentrator

The concentrator works by focusing the flow of air through the opening onto specific areas. This results in precise styling and is great for touch ups or to finish a style.

2.5m cord

The longer length results in improved flexibility and ease of handling, so you can use it anywhere you want.

CoolShot

CoolShot sets your style

Quick salon results

Quick salon results

More care with Ceramic element

The ceramic element issues far infrared heat, which has a gentle warmth that helps dry your hair from within and protects it from overdrying, without compromising on speed and effectiveness.

Ionic Care

Ionic conditioning enables anti-static drying. Charged negative ions eliminate static hair, condition the hair and smooth down the hair cuticles to intensify the hair's shine and glossiness. The result is smooth and frizz-free hair that shines beautifully.
