# Cafe enjoyment in perfect style

## Compact and high performing

With the Saeco Syntia the enjoyment starts as soon as you unwrap it from its packaging. Thanks to its classic design and its stainless-steel surface, it will become a true jewel in your family kitchen.

### **Easy to clean and maintain**

- Always a clean machine thanks to auto-clean and descaling

### **Perfect espresso**

- Ceramic grinders for Aroma preserving
- Pre-brewing function for flavour enhancing

### **Easy to use**

- Frontal access for easy filling and emptying
- Intuitive colour user interface

### **Easy to use**

- Easy cleaning thanks to removable brewing group

### **Family friendly**

- Energy efficient
- Sound-damping system

 **Saeco**

# Highlights

**Intuitive user interface**

Short or long coffee with one touch; your favourite length easily stored with the memo option—it's all easy with the wide display and the self-explanatory icons.

**Easy frontal access**

All the components you need to reach during your day-to-day enjoyment (water, coffee beans and coffee grounds container, drip tray, removable brewing group) are completely independent and accessible from either the front or top of the machine.

**Energy efficient**

This feature keeps the power consumption to a minimum. In fact, less than 1 Watt per hour is needed in stand-by mode, which is switched to automatically after 1 hour, saving resources and money

**Sound-damping system**

Special insulation and super-silent ceramic grinders preserve the peaceful kitchen atmosphere

**Ceramic grinders**

The high-tech grinders of this coffee machine beat the competition's steel grinders on many levels: always the perfect Italian taste because of consistent accurate grinding without overheating, supreme longevity and super-silent operation.

**Pre-brewing system**

Pre-brewing for even more enjoyment. Thanks to the Pre-brewing Technology, the coffee grounds are moistened before the actual brewing process – ensuring that the aroma unfolds even better.

**Removable brewing group**

The brewing group, a Saeco invention, is the heart of our espresso machines, ensuring automation. The brewing group is, depending on the model, easily accessible from the front or side. It can be removed effortlessly for easy cleaning by rinsing under the tap, ensuring maximum hygiene.

**Auto-cleaning and descaling**

Saeco designed this espresso machine to automatically clean its coffee circuit with water when starting up or switching off to deliver a great, fresh taste with each cup of coffee. Regular descaling prolongs your espresso machine's life. This machine will not only prompt when descaling is needed, the automated descaling process will start and guide you with clear on-screen messages when you have to intervene. Descaling has never been so easy!

# Specifications

**Easy to use**

- Usage: Adjustable coffee dispenser, Bypass for grinded coffee, Rapid steam, Removable brewing group, Removable water tank
- Cleaning and maintenance: Automatic coffee circuit rinse, Descaling cycle

**Weight and dimensions**

- Coffee bean capacity: 250 g
