Highlights

Ultimate shine with ionic care

Give your hair an extra boost of ionic conditioning. This hairdryer emits 4x more negative charged ions than other Philips hairdryers. The result is ultimate shiny, frizz-free hair. Let it shine!

7mm concentrator

The 7mm opening of the nozzle concentrates the flow of hair for precision styling on specific areas. The ideal attachment for brushing while drying and styling.

Cold shot of air

A must-have professional function, this new push and release cold shot button does not need to be constantly pressed to use it. It provides an intense burst of cold air to set your style after styling.

AC motor

Philips DryCare Pro 2300W has a high performance AC motor developed for the professional market. The AC motor generates up to 105km/h of air speed for fast and effective results.

2300W of power

The DryCare Pro hairdryer has a fast, high performance airflow for 2300W of professional drying and styling results.

ThermoProtect temperature

The ThermoProtect temperature setting provides the optimal drying temperature and gives additional protection from overheating the hair. With the same powerful airflow, you will get the best results in a caring way.

Accurate control

Easily set and control the heat and speed settings to create the perfect style. Choose from 3 heat and 2 speed settings for full control and precise drying and styling.

Volume diffuser

The volume diffuser spreads the flow of air across the hair, boosting volume and reducing frizz while drying. For best results, hold the diffuser close to the crown and root area. The diffuser's fine textured pins will add volume, maximize thickness, bounce and help shape curls.
