Highlights

Flavour Booster

The unique Flavour Booster of the Philips steamer adds delicious aroma of herbs and spices, bringing even more taste to steaming. Simply pop your favourite herbs and spices into the booster, and let steam do the rest. The heat from the steam releases delicate aromas from the herbs and spices, which thoroughly infuse the food with their mouth-watering flavours.

Optimal preset timings

Steaming is a delicate art, which is why the Philips Steamer has a wide range of preset timings that automatically shut off the steam once the ideal steaming time is reached. That will help you to cook a huge variety of foods – including rice, eggs, vegetables, chicken and fish – achieving perfect results that retain all the flavour and vitamins.

XL steaming bowl

With the XL steaming bowl you can prepare more varied tasty meals for your family. XL steaming bowl for soup, stew, rice and more.
