- F-box dimensions: 310 (b) x 120 (d) x 240 (h) mm
- Weight of net product incl. attachments: 878 g
- F-box volume: 1220 cm³

Technical specifications

- Voltage: 220-240 V
- Frequency: 50/60 Hz
- Wattage: 2100 W

Pallet

- Number of layers: 7
- Pallet dimensions: 1200 x 800 mm
- Number of A-boxes per layer: 3
- Pallet quantity: 126 pcs

Weight and dimensions A-box

- Number of F-boxes in A-box: 6
- A-box dimensions: 632 x 375 x 257 mm
- A-box volume: 60909 cm³
- A-box weight (including products): 8270 g

Highlights

Ceramic element

The ceramic element prevents overdrying. It issues infra red heat, which is a gentle warmth that helps to protect the hair from overdrying, without compromising on speed and effectiveness.

Ion conditioning

The ioniser inside the hairdryer creates negative particles, called ions, that neutralise the positive charge hair usually has. This calms the individual strands, brings them back into balance, and removes any static. As a result, hair is smoother and more manageable, and stays perfectly in style.

9 heat/speed settings

9 heat/speeds settings provide maximum flexibility to dry and pre-style your hair the way you want.

2100 Watt professional performance

The combination of heat and superior airflow brings you the quickest way to dry your hair.
