- Clinically proven* to improve mood and energy
- 100 years of Philips expertise in light technology
- Independent research show improved energy levels with users

PHILIPS

Highlights

Natural blue light

goLITE BLU energy light produces a particular kind of pure blue light that occurs naturally on very sunny, clear days. Special receptors in the eyes absorb this blue light which makes you feel energetic whenever you need it.

Fights winter blues

In countries with long winters, many people experience loss of energy and low spirits due to lack of light. These symptoms are referred to as the winter blues. They typically start in autumn and may last for several weeks. Philips goLITE BLU is a simple and natural way to alleviate these symptoms and restore your summer mood and energy level.

Increases energy levels

Our busy lifestyles demand a lot from us and we want to be at our best both during work and

private time. Sometimes we experience low moments or dips during the day. Using the goLITE BLU energy light at any time of the day will help you to increase your energy level and alertness in a natural way.

Use for 15-45 minutes per day

Place goLITE BLU in your field of vision - no need to look directly into the light. Using the goLITE BLU energy light for at least 15 minutes naturally improves your mood and energy level whenever you need it. Using it for longer is absolutely safe. Regular use every morning during winter months will help to alleviate the symptoms of the winter blues.

Simple timer and dimmer

Set the timer according to your needs to 15, 30, 45, 60 minutes and choose the right brightness out of the three levels by using the dimmer.

Long lasting LEDs

The durable LED lights in the goLITE BLU energy light can be used 30 minutes a day for 50 years, without losing its efficacy.

UV free

The pure, blue light increases your energy naturally, like on a sunny day, but without the UV rays associated with sunlight.

Clinically proven*

Clinically proven* to fight winter blues and increase energy levels.
