- Velvety froth at one touch with the Automatic Milk Frother

**Advanced technology designed for coffee perfection**

- 20,000 cups of finest coffee with durable ceramic grinders
- Enjoy hot coffee in no time with the Quick Heat Boiler

 **Saeco**

# Highlights

## AquaClean filter

## AquaClean

Saeco's new and patented innovation, AquaClean water filter, ensures you make the most out of your full automatic coffee machine. By changing the filter at machine request, you will not need to descale your machine for up to 5000 cups\*, while getting the benefit of clear and purified water. As an added benefit, the descaling notification alarm is automatically deactivated once AquaClean is installed in your favourite Saeco coffee machine.

## Quick Heat Boiler

When time is of the essence, you can brew perfect espresso and cappuccino without the wait, thanks to the Quick Heat Boiler. The

secret is in its light aluminum and stainless steel body, which can reach hot temperatures, fast.

## Customize your coffee

Choose your ideal strength from the 5 different settings, select the length and the temperature. You can easily save your desired coffee length with the Memo Function for each drink. Then every cup in the future will be customised exactly to your taste. You'll never have to remind it again, unlike the local barista.

## 100% Ceramic grinders

Our grinders are made of high-tech ceramic: exceptionally hard and precise. Fresh beans are gently ground, without risk of overheating: extracting all the best flavors and aroma,

delivering a superior coffee taste for at least 20,000 cups.

## Automatic Milk Frother

The Automatic Milk Frother will deliver your coffee's crowning glory at the touch of a button. Within seconds it will be topped with a silky, milk layer of the finest consistency - the ultimate lure for all cappuccino lovers.

## 10-settings adjustable grinder

When it comes to the fineness of the grind, this machine never fails to satisfy. Different coffee blends require different levels of granularity for the full flavour to unfold. So the grind granularity of this machine has ten adjustable settings – from the finest grind for a full-bodied espresso, to the coarsest for a lighter coffee.

# Specifications

## Weight and dimensions

- Dimensions of product (WxDxH): 215 x 429 x 330 mm

## Country of origin

- Made in: Europe

## Technical specifications

- Voltage: 230 V
- Capacity bean container: 250 g
- Cord length: 1.2 m
- Brewing time one cup: 45 (espresso) to 100 (long coffee) s
- Frequency: 50 Hz
- Capacity water tank: 1.8 L
- Capacity waste container: 15 servings
- Max. cup height: 78 - 164 mm
- Water boilers: 1
- Pump pressure: 15 bar
