**High comfort is part of the experience**

- Proven hygiene with the patented steam cleaning carafe

**High comfort is part of the experience**

- The fully removable brewing group can be cleaned in no time

**Advanced technology designed for coffee perfection**

- 20,000 cups of finest coffee with durable ceramic grinders

 **Saeco**

# Highlights

## 100% Ceramic grinders

Our grinders are made of high-tech ceramic: exceptionally hard and precise. Fresh beans are gently ground, without risk of overheating: extracting all the best flavors and aroma, delivering a superior coffee taste for at least 20,000 cups.

## Removable brewing group

Efficiency and ease of use were key inspirations when Saeco invented the first brewing group 30 years ago. And to this day, it still proves to be an inspired, resolute piece of technology. As always, it's so simple to clean – just remove it and wash it under the tap for a few seconds, then re-insert it just as easily.

## Fine-tune the coffee's flavor

When it comes to the fineness of the grind, this machine never fails to satisfy. Different coffee blends require different levels of granularity for the full flavor to unfold. So the grind granularity of this machine has eight adjustable settings – from the finest grind for a full-bodied espresso, to the coarsest for a lighter coffee

## Memo Function

Once you've chosen your ideal strength from the 5 different settings, you can easily save it with the Memo Function, as well your desired length and temperature. Then every cup in the future will be customised exactly to your taste. You'll never have to remind it again, unlike the local barista.

## Refine crema and body quality

Enjoy a crema layer just the way you like it and discover a wide spectrum of tastes, all with the twist of a knob! You control the coffee flow and brew pressure to vary the body and thickness of the crema with one easy move. Turn it left for a luxurious, thick crema layer and an intense and full bodied espresso; Or turn it right for a smooth, lighter tasting coffee with less crema.

## Hygienic steam cleaning carafe

Maintaining high hygiene has never been this easy. Thanks to the Steam Cleaning Cycle, the frothing mechanism will be automatically cleaned, removing milk residues without the need to empty the carafe. The hygienic performance is certified by the independent German test institute, VDE.

# Specifications

## Weight and dimensions

- Dimensions of product (WxDxH): 245 x 420 x 360 mm

## Country of origin

- Made in: Italy

## Technical specifications

- Voltage: 120 V
- Capacity bean container: 300 g
- Cord length: 0.8 m
- Frequency: 60 Hz
- Capacity milk carafe: 500 L
- Capacity water tank: 1.5 L
- Capacity waste container: 11 servings
- Pump pressure: 15 bar
- Max. cup height: 150 mm
- Water boilers: 2

## General specifications

- Cups at the same time: 2
- Suitable for: Whole coffee beans, ground coffee powder
- Ease of cleaning & maintenance: Removable brewing group, Automatic carafe cleaning, Automatic rinse cycle, Automatic de-scaling cycle
- Customizing per drink: Adjustable milk foam amount
- Ease of use and comfort: Removable spout, Display,

- Removable water tank
- Special functions: Ground coffee option, Ceramic grinder, Crema adjustment knob, Pre-brewing, Integrated carafe
- Type of carafe: Basic carafe
- Type of display: LCD
- Coffee drinks: Espresso, Cappuccino, hot water, Café Crème, frothed milk, Espresso Macchiato, Latte Macchiato

## Design

- Color: Stainless steel

## Weight and dimensions

- Weight of product: 14.2 kg

## Finishing

- Material of main body: Stainless steel
- Material boiler: Stainless steel (Inox)
- Material drip tray: Stainless steel
- Material water tank: Plastic

## Service

- 1-year guarantee

## Sustainability

- Power consumption brewing: 1400 W
