Ease your baby's transition to a drinking cup

Our new Natural trainer cup helps your baby transit from bottle drinking to their first cup easily. With the soft touch grips, your baby will be able to hold the bottle independently while drinking from the familiar teat.

Ideal first step to a drinking cup

- Soft touch trainer handles for little hands
- Anti-colic valve designed to reduce colic and discomfort

Other benefits

- Compatible with Philips Avent bottles and cups
- Flexible spiral design combined with comfort petals
- This cup is BPA free*

Convenient for you and your baby

- All parts are dishwasher safe for convenience

Highlights

Ergonomic trainer handles

Trainer handles help your toddler to hold the cup and drink independently. These handles are shaped for little hands to grab easily and they are also rubberized for a non-slip grip.

Anti-colic valve

Anti-colic valve designed to keep air away from your baby's tummy, to help reduce colic and discomfort.

Cup is dishwasher safe

All parts are dishwasher safe for convenience

Philips Avent compatibility

All Philips Avent bottles and cups are compatible excluding the glass bottles and the Grown-up cups/My First Big Kid Cups. So you can mix and match to create the perfect cup, suiting your toddler's individual development needs.

Flexible spiral design

Flexible spiral design, combined with our unique comfort petals to create a flexible teat, allowing for a more natural feed without teat collapse.

This cup is BPA free*

The Philips Avent Natural cup is made of BPA free* material (polypropylene).
