# Highlights

## Dual chamber milk carafe

Enjoy your milk specialties fully automated with the patented milk carafe with dual chamber technology. Simply pour milk into the carafe, plug it into the machine and select your coffee drink. With the dual chamber technology you will always enjoy professional coffee drinks with dense, long-lasting milk froth at the ideal temperature from a constant splash-free flow of milk.

## Auto cleaning and descaling

Saeco designed this espresso machine to automatically clean its coffee circuit with water upon starting up or switching off of the machine, this delivers a great, fresh taste with each cup of coffee. Regular descaling prolongs your espresso machine's life. This machine will not only prompt

when descaling is needed, the automated descaling process will start on your machine and guides you with clear on-screen messages when you have to intervene. Descaling has never been so easy!

## Saeco adapting system 2

No matter the bean you use, Saeco's intelligent adapting system will optimize the grinding cycles for perfect brewing quantity of coffee.

## Crema and body boost

This Saeco features our patented crema and body boost. This dial, conveniently located at your machine's spout, allows you to smoothly adjust the counter pressure changing your espresso's body and crema. Try it yourself and find your favorite taste.

## Professional double boiler

With 2 separate heating systems to cater for both the optimal coffee or milk frothing temperatures, this Saeco fully automatic espresso machine guarantees professional performance and speed everytime. You are able to prepare as many latte macchiatos and cappuccinos as you wish, one after the other and each just as good as the previous without waiting.

## 100% Ceramic grinders

Our grinders are made of high-tech ceramic: exceptionally hard and precise. Fresh beans are gently ground, without risk of overheating: extracting all the best flavors and aroma, delivering a superior coffee taste for at least 20,000 cups.
