- Activating AquaClean deactivates the descaling alarm
- Effortlessly activate the filter with the click-and-go system

Forget about descaling for up to 5000 cups*
- Your machine will not clog thanks to the micro-porous filter
- Naturally removes calcium thanks to ion-exchange technology

Pure water delivers the purest coffee
- Clear water, optimally purified by the patented water flow
- Micro-porous filter blocks any impurities

PHILIPS

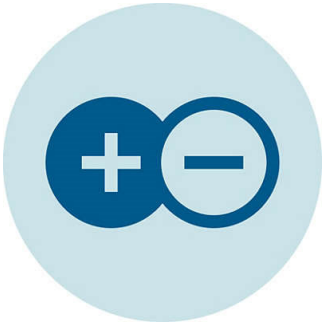

Calc and Water filter

Same as CA6903/01 No descaling for up to 5000 cups*, Prolong machine lifetime, 2 x AquaClean Filters

CA6903/22

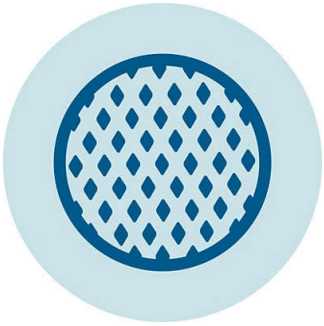

Highlights

Naturally removes calcium

The ion-exchange technology removes calcium from the water before it enters your coffee machine, thus preventing its formation. If the filter is replaced in a timely manner when prompted by the machine, you can enjoy up to 625 cups with each filter*

Better taste, for longer

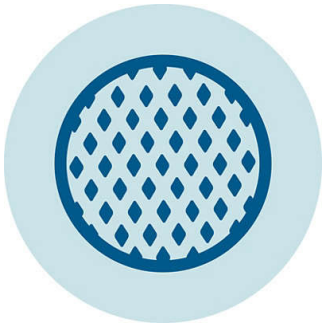

AquaClean will help preserve the taste of your coffee for longer and prevent your machine from clogging thanks to innovating features such as the ion-exchange technology, the patented water flow and the micro-porous filter.

Clear water, optimally purified

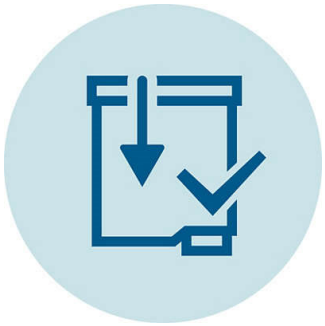

The AquaClean ensures only pure and filtered water flows into your Full Automatic coffee machine and it reduces the need of descaling. With AquaClean, you can enjoy up to 5000* cups without descaling by replacing the filter 8 times.

Filter blocks any impurities

Ridding your brew of any small particles makes a huge difference to your in-cup quality. The micro-porous filter prevents impurities from contaminating the water, so you can guarantee every cup you make will be fresh, clean and delicious.

Easily activate the filter

Such a useful feature could not be quicker to install. Just plug your AquaClean filter into the water tank of your Saeco super-automatic espresso machine, activate it via the user interface and you are ready to enjoy up to 5000 pure cups of coffee without descaling*.

Descaling alarm

By activating AquaClean filter you automatically deactivate the descaling alarm. Endless, hassle-free coffee of the finest quality is yours to enjoy - and it's not until after 8 filter replacements that the machine will reactivate the descaling process alarm. Machines equipped with AquaClean have a sticker on the water tank.

Philips Original

Please use only Philips consumables to ensure the maximum lifetime and the safety of your Philips and Saeco appliances. Applicable for all accessories***
