Super Lift and Cut

The dual-blade system built into the Philips electric shaver lifts hairs to cut comfortably below skin level for a closer shave.

GyroFlex 2D

The GyroFlex 2D contour-following system of the shaver adjusts easily to the curves of your face, minimising pressure and irritation for a close shave.

Aquatec Wet and Dry

The Aquatec wet and dry seal of the electric shaver lets you choose how you prefer to shave. You can get a comfortable dry shave or a refreshing wet shave using a shaving gel or foam for extra skin comfort.

Fully washable shaver

Simply pop the heads open and rinse thoroughly under the tap.

SkinGlide

The low-friction SkinGlide shaving surface of the electric shaver slides smoothly along your skin for a close, easy shave.

Cordless use - 45 mins

An energy-efficient, powerful lithium-ion battery gives you more shaves per charge. Charge it for an hour and you'll have up to

45 minutes of shaving time. Charge it for 3 minutes and you'll have enough power for one shave.

Two level battery indicator

The multi-level LED display shows when the battery is low, when you need a new head and when the travel lock is on. Travel lock prevents the product from turning on by accident. Press any button for 3 seconds to activate the travel lock so the product doesn't get turned on accidentally. A red lock symbol shows when the travel lock is on.

Click-on trimmer

Perfect your look with the SmartClick skin-friendly precision trimmer. It's ideal for maintaining a moustache and trimming sideburns.

Charging stand

The foldable charging stand is designed to fit into even the smallest spaces, so you can charge it wherever you want and easily take it with you when you travel.

Built to last

All of our shavers come with a 2 year worldwide guarantee and can adapt to any voltage. The long-lasting blades only need to be replaced after 2 years.
