Highlights

Unique OneBlade technology

Designed for facial styling and body grooming, the Philips OneBlade trims, edges and shaves any length of hair. It delivers an easy and comfortable shave thanks to a glide coating and rounded tips. And with a cutter that moves at 200 x per second, it's efficient even on longer hairs.

Trim it down

Trim to your preferred stubble length. Your Philips OneBlade comes with a precision comb with 12 lengths that you can use to create everything from a 5 o'clock, to a tight trim, to a longer beard style.

Edge it up

Get precise lines in seconds with the dual-sided blade that enables you to see every hair you're cutting.

Shave it off

The OneBlade shaver doesn't shave as close as a traditional blade, ensuring your skin stays comfortable. Go against the grain and shave off any length of hair easily.

12-length precision comb

A wet and dry shaver that allows you to trim to your preferred hair length with 12 different settings from 0.5 mm to 9 mm.

Dual-sided blade

OneBlade follows the contours of your face, allowing you to easily and comfortably trim and shave all areas. Use the dual-sided blade to style your edges and create clean lines by moving the blade in any direction.

Durable OneBlade

Easily replace your blade once every 4 months* for optimal performance. A green usage indicator will appear once the blade is worn out.

Wet and dry

Use this waterproof razor at the sink or take it with you into the shower. The OneBlade wet and dry razor is easy to clean and can be used with or without foam.

90 min Li-Ion battery

A single charge takes 1 hour, and delivers 90 minutes of constant performance.
