

PHILIPS

Hairdryer

ThermoProtect Ionic

2100 W

HP8234/03

Fast dry at a lower temperature with ThermoProtect with 14 mm styling nozzle

Protect your hair while enjoying fast drying results. Multiple heat and speed settings give the blow dry you want. Features ThermoProtect for fast drying at a constant caring temperature and Ionic Care for frizz-free shine.

Easy to use

- Removable air flow filter makes cleaning quick and easy
- 1.8 m power cord
- Easy storage hook for convenient storage

Beautifully styled hair

- Six flexible speed and temperature settings for full control
- Cool Shot sets your style
- Professional 2100 W

Less Hair Damage

- Ionic conditioning for shiny, frizz-free hair
- ThermoProtect temperature setting

Highlights

ThermoProtect temperature

The ThermoProtect temperature provides the optimal drying temperature and gives additional protection from overheating the hair. With the same powerful airflow, you will get the best results, whilst being kind to your hair.

Speed and temperature settings

The speed and heat required can be easily adjusted to create the perfect style. Six different settings ensure full control for precise and tailored styling.

Ionic conditioning

Give your hair instant care with ionic conditioning. Charged negative ions eliminate static, condition your hair and smooth the hair

cuticles to intensify hair's shine and glossiness. The result is smooth and frizz-free hair with beautiful shine.

Cool Shot

A must-have professional function for hair stylists. The Cool Shot button provides an intense burst of cold air. It is used after styling to finish and set the style.

1.8 m cord

Convenient to use thanks to the 1.8-m power cord length.

Easy storage hook

The rubberised hook is located at the base of the handle and provides another storage option, particularly convenient for use in the home or when staying at a hotel.

Removable air inlet filter

The removable air flow filter of your hairdryer is easy to maintain. Simply click off to clean. Doing this regularly will prevent build-up of dust and hair that can affect drying performance.

2100 W

This 2100 W professional hairdryer creates a powerful airflow. The resulting combination of power and speed makes drying and styling your hair quicker and easier.
