

PHILIPS

Hairdryer

SalonDry Pro

2100 W

HP4993/00

The dryer that hairdressers would use at home

SalonDry Pro

Want to dry your hair like the professionals? The SalonDry Pro – with 2000 W of drying power coupled with a super professional AC motor – is the hairdryer you need if you're looking to recreate that salon style blow dry.

Easy to use

- Salon length 3 m power cord for maximum flexibility

Beautifully styled hair

- Six flexible speed and temperature settings for full control
- Volume diffuser enhances volume, for curls and bouncy styles
- Professional 2100 W for perfect salon results
- Ultra narrow concentrator for precise styling

Less Hair Damage

- Ion conditioning for shiny, frizz-free hair

Long-lasting styles

- Cool Shot sets your style

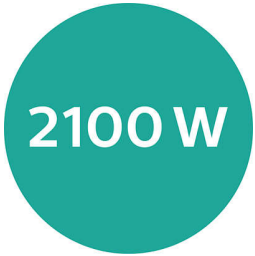

Highlights

Volume diffuser

The volume diffuser dries hair healthily, reduces frizz and increases volume by spreading the airflow across the hair. It adds lift and maximises volume, especially when used on the crown and root area, making it perfect for creating curls and bouncy styles

Professional 2100 W

This 2100 W professional hairdryer creates a powerful airflow. The resulting combination of power and speed makes drying and styling your hair quicker and easier.

Six flexible speed and temperature settings

The speed and heat required can be easily adjusted to create the perfect style. Six different settings ensure full control for precise and tailored styling.

Ultra narrow concentrator 15 mm

The concentrator works by directing the flow of air through the ultra-narrow opening on to specific areas. This results in very precise styling and is great for adjusting or finishing a style.

Ion conditioning

Give your hair an instant boost with ionic conditioning. Charged negative ions eliminate static, condition the hair and smooth down the hair cuticles to intensify the hair's shine and glossiness. The result is hair that is beautifully shiny, smooth and frizz-free.

Cool Shot

A must-have professional function for hair stylists. The Cool Shot button provides an intense burst of cold air. It is used after styling to finish and set the style.

3 m cord

The longer length results in improved flexibility and ease of handling, so you can use it anywhere you want.
